

Course Descriptions

Language Arts:

Students will grow in their knowledge and understanding of the English language through the study of grammar, vocabulary, and spelling. Daily practice will ensure the student's progress in learning spelling tips and tricks, including the spelling of plurals and knowing the differences between homophones. Vocabulary is introduced through the daily reading and then practiced and reviewed. Word roots and related words are used to help students discover the meaning of new words. Students are tested weekly on spelling and vocabulary acquisition. Grammar is focused on learning the parts of speech and how to write proper sentences of varying structure. Students learn to identify subjects, predicates, and the objective case and will apply that knowledge to writing well-structured sentences with correct word choice. Mechanics such as capitalization and punctuation including hyphens, semicolons, quotation marks, and apostrophes are taught and practiced. Students will brainstorm for quality, specific words to use as well as learn to use similes and metaphors to add description to their writing. All of their work culminates in student-produced writing several times a week. Weekly editing exercises put their knowledge to use, and the students create a final draft of one of their written pieces each week. Students will produce both fiction and non-fiction works and will have the opportunity to read their work aloud in front of an audience.

Hebrew:

Students will learn Psalm 23 in Hebrew. They will be able to read, write, and speak it. Students will learn the grammar necessary to understand the sentence construction and how different endings change the meaning of the words. Students will uncover new insights into the passage by studying the original Hebrew text.

Science:

Students will discover new things as they explore the sciences of biology, physics, chemistry and earth science. In biology the students will study body systems including the endocrine and urinary systems. They will dig deep and learn about cell structure and organelles at work. They will understand plant classification systems and learn the characteristics of major groups of plant life, as well as fascinating facts of some specific animals. In chemistry students will explore solubility and chemical reactions. They will understand how everything is a chemical and how heat energy can be transferred through chemical processes. In physics students will study light, sound, electricity, friction, and the forces involved in flight. Newton's laws of motion and Joule's laws of energy will be explored. Simple experiments will expand students' understanding. In earth science students will learn about wild weather including earthquakes and volcanoes and about the differences between the types of clouds. Students will study landforms and rock formation. They will identify rocks as they study the rock cycle. Students will appreciate the greatness of a God who created all these marvelous things.

Social Studies:

Students will be inspired as they learn about great leaders and eloquent speakers. Students will learn of the struggle to overcome those in the Civil Rights Movement and those fighting against apartheid. They will learn of Nobel Peace Prize winners and hear quotes from State of the Union Addresses. They will travel the globe as they find monuments to great people and events and as they find landmarks and landforms. They will follow the expansion of great empires. They will learn of the tragedy of Holocaust and the triumph of Christian missionaries who shared the gospel in the darkest of circumstances. Students will travel the seas with Vikings and pirates. They will learn about representative democracy, the branches of government, how laws are made, and will take part in the process. Students will learn of how God gifted great artists and composers as well as learn about some of man's great failings. Some of the topics include: ancient history in Africa, hair in culture, the Battle of Hastings, the Great Smog, biographies of scientists and artists, the Gutenberg Press, the history of the land of Israel, gold rush, swords and armor, Tiananmen Square, and celebrations, including the Jewish feasts. Students will be challenged to think, examine, and form opinions. Primary sources used in the lessons include maps, speeches, documents, photographs, censuses, and first-hand accounts.

Memory Verses

Day 1

Psalm 23:1-2

The Lord is my shepherd I shall not want. He makes me lie down in green pastures; He leads me beside quiet waters.

Day 6

Psalm 23:3

He restores my soul; He guides me in the paths of righteousness for His name's sake.

Day 11

Psalm 23:4

Even though I walk through the valley of the shadow of death, I fear no evil, for You are with me; Your rod and Your staff, they comfort me.

Day 16

Psalm 23:5

You prepare a table before me in the presence of my enemies; You have anointed my head with oil; My cup overflows.

Day 21

Psalm 23:6

Surely goodness and lovingkindness will follow me all the days of my life, And I will dwell in the house of the Lord forever.

Review Weeks

Day 36

Luke 4:18

"The Spirit of the Lord is upon Me, Because He anointed Me to preach the gospel to the poor. He has sent Me to proclaim release to the captives, And recovery of sight to the blind, To set free those who are oppressed."

Day 41

Romans 1:16.

For I am not ashamed of the gospel, for it is the power of God for salvation to everyone who believes, to the Jew first and also to the Greek.

Day 46

Matthew 9:13

"But go and learn what this means: 'I DESIRE COMPASSION, AND NOT SACRIFICE,' for I did not come to call the righteous, but sinners."

Day 51

Proverbs 1:7

The fear of the Lord is the beginning of knowledge; Fools despise wisdom and instruction.

Day 56
Ephesians 2:8,9

For it is by grace you have been saved, through faith—and this not from yourselves, it is the gift of God—not by works, so that no one can boast.

Review Weeks

Day 71
Ephesians 1:7

In Him we have redemption through His blood, the forgiveness of our trespasses, according to the riches of His grace.

Day 76
Philippians 4:19

And my God will supply all your needs according to His riches in glory in Christ Jesus.

Day 81
Galatians 2:20

I have been crucified with Christ; and it is no longer I who live, but Christ lives in me; and the life which I now live in the flesh I live by faith in the Son of God, who loved me and gave Himself up for me.

Day 86
John 14:15

If you love Me, you will keep My commandments.

Day 91
Numbers 6:24-26

The Lord bless you, and keep you; The Lord make His face shine on you, And be gracious to you; The Lord lift up His countenance on you, And give you peace.

Review Weeks

Day 106
Exodus 20:3-5a
Commandments 1&2

You shall have no other gods before Me. You shall not make for yourself an idol, or any likeness of what is in heaven above or on the earth beneath or in the water under the earth. You shall not worship them or serve them; for I, the Lord your God, am a jealous God.

Day 111
Exodus 20:7
Commandments 3

You shall not take the name of the Lord your God in vain, for the Lord will not leave him unpunished who takes His name in vain.

Day 116
Exodus 20:8-10a
Commandment 4

Remember the sabbath day, to keep it holy. Six days you shall labor and do all your work, but the seventh day is a sabbath of the Lord your God;

Day 121

Exodus 20:12-15

Commandments 5-8

Honor your father and your mother, that your days may be prolonged in the land which the Lord your God gives you.

You shall not murder.

You shall not commit adultery.

You shall not steal.

Day 126

Exodus 20:16-17a

Commandments 9&10

You shall not bear false witness against your neighbor. You shall not covet your neighbor's house; you shall not covet your neighbor's wife or his male servant or his female servant or his ox or his donkey or anything that belongs to your neighbor.

131-140		Review weeks

Science

- 1 body system review, DNA (telomeres)
- 2 rates of population growth
- 3 brick making, chemical process (vitrification)
- 4 how to be vigorous
- 5 plague, immune system (white blood cells, antibodies)
- 6 reeds, plant classification (mono-, angiosperm)
- 7 bathing (eubacteria)
- 8 -
- 9 review: water cycle, water table, gravity, elevation, wheel and axle, simple machine, work, force
- 10 tears (endocrine system, hormones) *Opens the possibility of discussing body changes
- 11 fire magic tricks
- 12 milk (calcium)
- 13 honey (enzymes, chemical reaction, review of DNA, RNA, ribosome, protein)
- 14 unusual snakes, reptile review
- 15 finding and refining silver and gold (mining)
- 16 leprosy (dendrites, axons)
- 17 deafness, sound (cochlea)
- 18 how speech is formed (epiglottis, trachea, larynx-voice box)
- 19 donkeys
- 20 sound amplification
- 21 swords (copper, tin, bronze)
- 22 straw, parts of a plant
- 23 production line, assembly line
- 24 sight (photoreceptors, rods, cones, blind spot)
- 25 compulsion (dopamine, transmitter)
- 26 - 35 Review Weeks
- 36-40 WWII
- 41 heart (pulmonary)
- 42 our brains and how they play tricks on us, optical illusions
- 43 blood (red and white blood cells, plasma, platelets, bone marrow, hemoglobin)
- 44 fish of the Nile
- 45 amphibians, frogs (metamorphosis)
- 46 decomposition, decomposers, the fungus kingdom
- 47 gnats, insect review
- 48 flies
- 49 stones and rocks (sedimentary rock, sandstone, limestone)
- 50 metamorphic rock, igneous rock, rock cycle, rock identification
- 51 horses
- 52 white blood cells (lymph, lymph nodes)
- 53 hail (cumulonimbus)
- 54 thunderstorm, lightning
- 55 hurricanes
- 56 flax, barley, wheat, spelt (germinate)
- 57 tornadoes

58	locusts
59	wind (gust)
60	candles
61-70	Review
71	rate (velocity, acceleration)
72	polarity
73	trembling (fight or flight, adrenaline)
74	water treatment plants
75	water treatment
76	quail (migration)
77	worms (annelids)
78	Newton's Third Law of Motion
79	barbeque (Maillard Reaction)
80	displacement
81	lift (thrust, drag)
82	detergent (surfactants)
83	earthquakes (magnitude, seismograph)
84	cloud identification (cumulous, stratus, cirrus)
85	volcanoes (dormant)
86	tools and simple machines (awl, printing press)
87	teeth, review of eye (enamel)
88	Bernoulli's Principle
89	flight, hot air balloons
90	build flying machines
91	where oil comes from, chemistry review
92	levers (fulcrum)
93	precious stones, diamonds (transparent)
94	fog (dewpoint)
95	porpoise, dolphin (echolocation)
96-105	Review Weeks
106	colors in light, color of the sun and sky, light frequencies
107	minerals (agate, emerald, ruby, sapphire, diamond, turquoise, and others)
108	chain mail, arrows, and the forces at work
109	urinary system (homeostasis)
110	fat
111	plant and animal cells (organelles, mitochondria)
112	acacia trees (gymnosperm)
113	causes of disease (enzymes, genetic disorder)
114	heat (chemical, transfer of energy)
115	compound machines (gears)
116	perpetual motion (Newton's first law of motion)
117	friction (kinetic, static, inertia)
118	oceans (continental shelf, trench)
119	$F = ma$
120	viscosity
121	landforms
122	landforms
123	fear (amygdala)

124	bioluminescence (anglerfish)
125	symbiotic relationship
126	electricity (circuit)
127	tree identification
128	saturation (solvent, solute, solubility)
129	hair (follicles, keratin)
130	seeing color
131 – 140	Review Weeks
145 – 180	Review Activities

Science Explore More

- 1 Do you remember how DNA copies itself? If not, learn about DNA DNA reproduction, how it divides and copies itself. If that's something you know, then learn about the role of telomeres in cancer.
- 2 What are some predictions about the future population? Why are some predictions showing that population rate of growth will slow in the future? In what ways are science and technology part of the population growth debate?
- 3 Learn about glass making.
- 4 Learn more about nutrition's effect on the body, or specifically about eating fat and sugar.
- 5 Learn about white blood cells.
- 6 Make a plant classification chart showing the classification of a moss, a pine tree, and a flower.
- 7 Learn about the eubacteria kingdom. What are their characteristics and divisions?
- 8 -
- 9 Learn about the gas state. How does pressure affect elements in a gaseous state?
- 10 What is the function of the thyroid gland?
- 11 Learn about how matches work.
- 12 When calcium helps you stop bleeding, it is clotting your blood. Learn about the body's process of blood clotting.
- 13 Learn about human digestive enzymes.
- 14 Learn about snakes. What unique snakes can you learn about? Or, learn about what kinds of snakes live in your part of the world.
- 15 Learn about the refining process. How does heat make silver and gold pure?
- 16 Learn about how nerves repair themselves.
- 17 Learn about the motion of sound waves. What is frequency and amplitude?
- 18 Learn about resonance.
- 19 Learn about donkey herds and animal socialization. What animals need to be in a group? Why? How do the animals in the herd need each other?
- 20 Learn about how speakers work.
- 21 How were quenching and tempering part of the sword-making process? What effect do they have on the sword? Why?
- 22 Learn about the wheat plant. Where are its flower and fruit? What are its stages of growth?
- 23 Learn about automotive assembly lines unless there's another product you really want to learn about how it's made.
- 24 Learn more about rods and cones.
- 25 Learn about the structure of the brain. What is the pleasure center's scientific name? What are the other parts of the brain?
- 26-35 Review weeks
- 36-40 Double social studies lessons
- 41 Learn more about the heart and heart rate. What does resting heart rate show? How can exercise help and hurt the heart? How can fat help and hurt the heart?
- 42 Learn about how pick pockets can take stuff right off of us by using distraction. How do they trick our brains?
- 43 What happens to red blood cells when they die?

- 44 What's the largest saltwater fish? The largest bony fish?
- 45 What are the other types of amphibians? What makes them unique?
- 46 Learn the nitrogen cycle. (We looked at part of the cycle in the Book of Genesis.)
- 47 Learn about the types of gnats (unless there's another insect you are interested in). How can you naturally get rid of them? What can be done about a bite?
- 48 Learn about flies as pollinators.
- 49 Learn about sedimentary rocks. I suggest using Answers in Genesis or other sites by creationists. How do some famous sandstone features demonstrate the truth of Noah's flood?
- 50 Learn about a specific type of each of the three kinds of rock and rock identification.
- 51 Learn about zebras or rhinos, other animals in the same order as the horse.
- 52 Learn about the lymphatic system.
- 53 Learn more about hail.
- 54 Learn about the heating up of the atmosphere by electrons. Learn about how positive and negatively charged atoms are formed. In particular, why do electrons join the orbits of another atom?
- 55 What controls the way the hurricane turns?
- 56 What does vitamin B do for our bodies? What about omega-3?
- 57 Learn more about tornadoes.
- 58 Learn more about locust plagues.
- 59 Why does warm air rise? Why does temperature affect pressure?
- 60 Learn about light and heat energy.
- 61-70 Review Weeks
- 71 What is relative velocity? What does a graph of constant velocity look like? What does a graph of constant acceleration look like?
- 72 Learn about how polarity affects water as a solvent.
- 73 Learn more about adrenaline.
- 74 Learn about tertiary filters.
- 75 Can you learn about a local water treatment plant? What chemicals do they use in our drinking water? Why is it safe to drink?
- 76 Learn about bird migration patterns. What dangers do birds face during migration?
- 77 Learn about marine worms.
- 78 I said that all forces come in pairs and that all forces are two things interacting. What two objects are involved with gravity? How does that work?
- 79 Learn about the science of the perfect barbeque.
- 80 Read about buoyancy and how it relates to displacement.
- 81 Read more about the four forces of flight and Newton's Third Law and lift. (We will get to Bernoulli and air pressure.)
- 82 How is a bar of soap the same or different from laundry detergent?
- 83 Learn more about how earthquakes occur. How do they know where an earthquake's epicenter is?
- 84 Read about clouds. How are altostratus and nimbostratus clouds related? How can we predicate the weather by looking at the clouds? Try some rain predictions this week.
- 85 Learn about the different types of volcanoes. What's a supervolcano?
- 86 Learn how a printing press works. Could you make your own?
- 87 Learn more about teeth and diet or learn about the tissue that makes up teeth.
- 88 Learn about Bernoulli's Principle. Where else can it be applied?
- 89 Learn about how hot air balloons work. How do you fly one? How do you steer?

- 90 Other flying things you can make: kite, a drop helicopter.
- 91 Learn about how atoms bond as molecules.
- 92 How are potential and kinetic energy at play in a mousetrap?
- 93 What is the chemical makeup of emeralds?
- 94 Learn about dewpoint.
- 95 What other animals echolocate? There's lots to learn about echolocation.
- 96-105 Review Weeks
- 106 Where is green? Why isn't the sky or sunsets green?
- 107 Pick a mineral to learn about. What's a geode?
- 108 What is the acceleration of gravity? What causes some things to not hit the ground at the same time even though dropped at the same time?
- 109 Learn about dialysis.
- 110 Learn about the different kinds of fat and how our bodies use them.
- 111 Choose something else from the diagrams to learn about.
- 112 Choose a tree and learn its identification. How would you identify it? How can you tell the difference between a male and female tree?
- 113 Learn about a type of disease or genetic disorder.
- 114 What law of thermodynamics did we talk about today? What is thermodynamics?
- 115 Learn about gears. Look around your home for simple and compound machines.
- 116 Look for examples of perpetual motion machines. How do they work?
- 117 What is the coefficient of friction? How would you use it?
- 118 Learn about how animals live without sun at the bottom of the ocean.
- 119 Look online for problems to practice $F=ma$.
- 120 Experiment: Can you pour gas?
- 121 Learn about the Hudson Bay.
- 122 Learn about the Panama Canal.
- 123 Learn about the pre-frontal cortex.
- 124 Learn about the chemical reaction that causes bioluminescence.
- 125 Learn about the different types of symbiotic relationships.
- 126 Learn about power plants or about the chemical reaction that takes place in a battery.
- 127 Go outside, find a tree or two, and figure out what they are.
- 128 Conduct a solubility experiment, or learn about gases as solutes and solvents.
- 129 Learn about hair. What is the papilla and bulb?
- 130 Learn more about color and light.

Social Studies

- 1 The Twelve Tribes of Israel and the land of Israel, Bible patriarch's family tree
- 2 Axis and Allies in WWII (Roosevelt, Churchill, Chiang Kai-Shek, Stalin)
- 3 building materials in history (pykrete)
- 4 using data to create a population map
- 5 plague, King Richard, genocide
- 6 cultural value placed on male/female
- 7 the history of bathing
- 8 racism, apartheid, Nelson Mandela (ethnicity, economic sanctions)
- 9 14th Amendment, immigration
- 10 crying out to God, "for such a time as this"
- 11 Mountain of God, Mount Everest (Sinai Peninsula, Himalayas, Nepal)
- 12 Canaanite, Hittite, Perrizite, Amorite, Hivite, Jebusite
- 13 plundering, pirates (Sir Francis Drake)
- 14 miracles
- 15 Vikings (Scandinavia)
- 16 lepers (ostracized)
- 17 famous Winston Churchill speeches
- 18 how we learn speech
- 19 Midianites
- 20 Martin Luther King, Jr. "I Have a Dream" speech
- 21 swords (Yamashita, Napoleon, Wallace, Charlemagne)
- 22 good leaders, Dr. Martin Luther King, Jr. as a leader of the Civil Rights Movement
- 23 culture, work ethic
- 24 history of who has lived in the land of Israel
- 25 Six-Day War
- 26 - 35 Review Weeks
- 36 Leading up to WWII (Treaty of Versailles, Hitler)
- 37 Timeline of WWII (Gladys Aylward, Brother Andrew, Corrie Ten Boom, Jacob DeShazer, Darlene Deibler)
- 38 Hitler, Churchill, Stalin, Roosevelt
- 39 Holocaust
- 40 WWII and Japan, impact of the war
- 41 the establishment of the political nation of Israel after WWII (The Partition Plan)
- 42 magic
- 43 reservoir
- 44 the number seven
- 45 Egyptian homes
- 46 God using evil to fulfill His purposes
- 47 biggest deserts of the world
- 48 wasteland
- 49 abominations
- 50 -
- 51 God's love/favoritism
- 52 pottery and archeology
- 53 time zones (longitude, latitude, Prime Meridian, Greenwich Mean Time)

- 54 hail in the Bible
- 55 hurricane geography and history
- 56 bad leaders
- 57 signs from God
- 58 locust plagues
- 59 Red Sea (inlet)
- 60 meaning of light in the Bible
- 61 - 70 Review Weeks
- 71 Declaration of Independence (Thomas Jefferson)
- 72 discovery of the North Pole (Peary, Cook)
- 73 events leading to the American Revolution (no taxation without representation)
- 74 water crisis
- 75 solve the world's water crisis
- 76 socialism
- 77 Ark of the Covenant
- 78 Isaac Newton
- 79 trials (plaintiff)
- 80 good leaders, Archimedes
- 81 feudal system (siege)
- 82 State of the Union Address
- 83 Tiananmen Square
- 84 gospel commandments
- 85 volcanoes and geography and history and archeology (Pompeii)
- 86 Gutenberg Press
- 87 how laws get made (bill)
- 88 elections, representative democracy (candidate, run for election)
- 89 three branches of power (executive, legislative, judicial)
- 90 Write a representative.
- 91 Feast of the Harvest and Feast of the Ingathering
- 92 angels
- 93 Nobel Peace Prize
- 94 London Fog (The Great Smog)
- 95 tabernacle
- 96 - 105 Review Weeks
- 106 memorials, Valiant Five, Gateway Arch, Lincoln Memorial, Iwo Jima, Taj Mahal
- 107 apprentices (guilds, Ben Franklin, Nathaniel Bowditch)
- 108 the development of armor
- 109 turbans (sikh)
- 110 celebrations (bar mitzvah, Quinceañera)
- 111 Hanukkah (Maccabees, menorah)
- 112 gold rush (California Gold Rush, entrepreneur, patent, lower wage)
- 113 census
- 114 James Joule (first law of thermodynamics)
- 115 Leonardo DaVinci (perspective, Mona Lisa, The Last Supper)
- 116 Johannes Sebastian Bach (Baroque, melody, harmony)
- 117 crown jewels (monarchy)
- 118 The Tower of London (The Battle of Hastings, William the Conqueror)
- 119 empathy and sympathy

120	overview history of Africa (Pygmies, Mali, Carthage)
121	landforms
122	landforms
123	fear, cultural superstitions
124	Search the Bible for references to the Feast of Unleavened Bread and to yeast.
125	Shavuot
126	Faraday creating electricity and Edison building the first power plant
127	Moai, Terracotta Warriors, Sphynx, Christ the Redeemer
128	William Wilberforce (abolitionist)
129	hair and culture
130	cherubim (Rafael)
131 – 140	Review Weeks
141 – 145	Timeline
146 – 180	Review Activities

Social Studies Explore More

- 1 Where does the division of the land of Israel for the tribes happen in the Bible? How does it happen? Are the tribes of Israel ever mentioned in the New Testament? What does it say? Are there any modern population statistics about the tribes of Israel?
- 2 Learn about the Invasion of Normandy.
- 3 When people make “green” buildings? What are they doing? How are they doing it?
- 4 China and India are shown in this data as the most populated. How do those countries address the issue of a fast-growing population? Have they been successful? Why or why not? Do you have suggestions for them?
- 5 Learn about the Crusades.
- 6 Make a list of some female heroes in the Bible. What common characteristics can you find in them?
- 7 Learn about ritual cleaning in Judaism and Islam.
- 8 Learn about Nelson Mandela.
- 9 What are America’s policies on immigration? What are the different view points on immigration?
- 10 Use an online Hebrew concordance to learn about the type of crying out David does in the Psalms.
- 11 Learn about the history of climbing Mount Everest.
- 12 Why do modern day Palestinians claim they are the descendants of the Jebusites?
- 13 Learn about the Golden Age of Pirates or modern-day piracy.
- 14 Read testimonies online or write your own down to share with others.
- 15 Learn about the Vikings when they were at home.
- 16 Look up leprosy in the Bible. How is leprosy a symbol for sin?
- 17 Learn more about Churchill. You could also find the speeches in full to read or to listen to online.
- 18 Read about speech acquisition.
- 19 What is the history of the area of Midian?
- 20 Learn about the March on Washington. Choose another speaker from that day to learn about.
- 21 Choose either Napoleon or Wallace to learn more about.
- 22 Learn about Martin Luther King, Jr.
- 23 Choose a country. Read about its culture. What ethnic groups are there with different cultures?
- 24 Learn more about May 14, 1948 and what took place to bring it about.
- 25 How did the territories won in the Six-Day War get back to Palestinian control?
- 26-35 Review Weeks
- 36 Learn about Hitler’s youth and rise to power.
- 37 Learn about the uprisings in Warsaw.
- 38 Learn about Benito Mussolini, Chiang Kai-Shek, or Hirohito, the leaders of Italy, China, and Japan during WWII.
- 39 Learn about concentration camps or Corrie Ten Boom’s experience in a concentration camp.
- 40 What are you interested in today? You could find out who Rosie the Riveter is. You can learn about Japan’s campaign in China or the aftermath of WWII in China and Europe leading to the rise of communism.

- 41 Who was in Israel before 1944? What's the history of Israel from 1948 to 1967?
- 42 You need to be careful learning more about this, but you can try to read about some witch doctors who have come to Christ. There's an article on Gospel for Asia's site called, "Christian Witch Doctor" Leads Many to Christ."
- 43 Where are the biggest reservoirs? How do they help those regions?
- 44 Another number we find a lot in the Bible is three. Be careful what sources you use, but what can you learn about the meaning of the number three in the Bible. Better yet, search for three in the Bible and come to your own conclusions.
- 45 What can you learn about Egyptian homes? Remember to read in more than one place. There is often conflicting information out there, especially about things like this that we can't observe for ourselves.
- 46 The book of Judges is full of the story of God using evil to bring about His purpose. Study it. What was His purpose? How did He accomplish it?
- 47 Learn about one of these deserts and how it affects life in that region.
- 48 Choose a wasteland to learn about, such as swamps, or learn about how man has created wastelands in other ways and what you can do about it.
- 49 What does God call an abomination?
- 50 Double science lesson
- 51 Learn about zebras or rhinos, other animals in the same order as the horse.
- 52 Learn about other archeological finds that support the Bible.
- 53 How were these things decided? Who sets the day and time?
- 54 Read the prophecies concerning hail. What's going to happen? Why?
- 55 Choose a country of the world affected by hurricanes and learn about the history of impact of hurricanes in that area.
- 56 Who are some other notoriously bad leaders? What do they all have in common?
- 57 Learn about Darlene Deibler whom I mentioned during our WWII studies. What are some ways God showed signs to her that He was still in control and still loving her even though she was in prison and in a horrible situation?
- 58 Read more about historic locust plagues.
- 59 Learn about the history of the Red Sea.
- 60 Do a Bible search on the word, light. You could also look up flames. God appears in the burning bush. The temple has light that is never to go out. What meaning does light have in the Bible?
- 61-70 Review weeks
- 71 What was the impact of the Declaration of Independence around the world?
- 72 There is a long article on the Smithsonian website if you want to keep reading.
- 73 Learn about the Battle of Lexington and Concord.
- 74 Learn about the water crisis and what's being done. What methods/ideas do you think are the best?
- 75 Save the world!
- 76 Learn about socialism.
- 77 Learn about the history of the Temple Mount. What's its status today?
- 78 Learn about Newton's pursuits after the Principia. What areas did he move into?
- 79 Learn about becoming a judge in America.
- 80 Learn about Archimedes.
- 81 Learn about the feudal system in Japan.
- 82 Listen to or read a State of the Union Address. One suggestion is Lincoln's 1863 speech, or if you want to watch one, search for Ronald Reagan. In 1982 he was the first

- president to invite a person to the speech to use as an illustration of a point. Every president since has done the same.
- 83 What was the aftermath of this event?
- 84 -
- 85 Learn about the excavation of Pompeii or about another famous eruption.
- 86 Learn about Gutenberg or Tyndale.
- 87 Read more about the process. What's a pocket veto? What bills are in progress now?
- 88 Learn about the election process. What's a caucus? What other parties are there? What was the beginning of our two-party system?
- 89 Read more about the separation of powers.
- 90 Frequent letters can get you recognition for your passion and concern, but you don't want it to be for harassment! Write professionally, clearly, and purposefully.
- 91 Read more about these Feasts. How are they celebrated today?
- 92 You can read more excerpts from Billy Graham's book online.
- 93 Who was Gorbachev and why did he win the prize for peace?
- 94 How does pollution affect populations?
- 95 Look online for images of the tabernacle and explanations of its meaning to the Israelites.
- 96-105 Review Weeks
- 106 Learn about more famous memorials. If you are interested in a particular country or group of people, search specifically for those memorials.
- 107 Learn more about Nathaniel Bowditch.
- 108 Learn about medieval weapons or defenses.
- 109 Choose a country or culture and learn about a special ceremony they have.
- 110 Learn about the Maccabees, or even read the First Book of Maccabees in the Apocrypha.
- 111 What's your favorite holiday? Why?
- 112 Learn about Chinese immigrants.
- 113 You can see more censuses online. You could even search for your ancestors in a census.
- 114 Learn about Joule.
- 115 What was Leonardo's contribution to the study of anatomy?
- 116 This would be a good time to go listen to some Bach music.
- 117 Learn about the British Parliament. How is it similar and different from Congress?
- 118 Learn about the Normans.
- 119 How can you show people you value them?
- 120 Who is Hannibal? What is he famous for and what does he have to do with this lesson?
- 121 Learn about Henry Hudson discovering the Hudson Bay.
- 122 Learn about the Panama Canal.
- 123 Why do people hold onto superstitions?
- 124 Passover (Seder)
- 125 Learn about Shavuot.
- 126 Learn about Faraday's law.
- 127 Learn about the Terracotta Army.
- 128 How are these people connected with William? Thomas Clarkson, William Pitt
- 129 The queen was Marie-Antoinette. Who was that?
- 130 Learn about Rafael. See more of his work.
