Welcome to the Division Facts Practice Workbook. It just takes five minutes a day. Your child will practice with the same sheet every day which will give them the chance to improve every day. There are 60 pages included here. You can print out this whole book or extra pages if needed from where you purchased this on our site.

The first pages will introduce your child to the division facts. They can refer back as much as they need to in order to answer their fact sheets. Every time they answer correctly, it's practice. It's important for them to answer correctly rather than to guess.

Once you get to the facts practice, give your child five minutes on a timer to answer as many correctly as possible. After five minutes have your child skip to the end and do the last six problems which are multiplication review. Then check the answers. You can find the list of answers in the back of the book. Write the number of correct answers in the score blank. If you have a child racing and guessing, you can subtract off the score the number of incorrect answers. Encourage your child to beat his record each day. Once your child can get them all correct, your child can continue and get rewarded by racing their own time record each day.

Division is dividing things into groups. It's the opposite of multiplication. Use the multiplication facts to write the division facts in that same family. Use the examples to do the rest.

If you find a mistake in any of our books, please contact us through genesiscurriculum.com to let us know.

Learning facts is an important step, similar to learning phonics in reading. It will enable them to conquer harder math if they are fluent in the basics. Take the time to practice and gain fluency in math facts.

Genesis Curriculum takes a book of the Bible and turns it into daily lessons in science, social studies, and language arts. Daily lessons also include reading a portion from the Bible, practicing a weekly memory verse, discussing a thought-provoking question, and learning a Biblical language.

Genesis Curriculum also offers:

GC Steps: This is GC's preschool and kindergarten curriculum. There are three years (ages three through six) where kids will learn to read and write as well as develop beginning math skills.

A Mind for Math: This is GC's elementary school learning-together math program based on the curriculum's daily Bible reading. Children work together as well as have their own leveled workbook.

Rainbow Readers: These are leveled reading books. They each have a unique dictionary with the included words underlined in the text. They are also updated to use modern American spelling.
